

Issaquah School District #411
Vision Screening Information

School: _____

Date: _____

Name: _____ **Grade:** _____ **Teacher:** _____

Results of the school vision screen program are as follows:

Acuity - right eye _____ left eye _____

- This is for your information. We realize that your child is seen regularly by your eye doctor.
- According to Washington State guidelines, a visual acuity of 20/30 or less in each eye is considered to be within normal limits for students in grades kindergarten through twelve.
- Unable to accurately screen vision.
- You may wish to check with your eye doctor to determine whether further evaluation is recommended at this time.

Please notify the school nurse of any new information regarding your child's vision.
