

Length of Work Day

Specific building hours for staff shall be determined by the administration.

When severe weather conditions delay the starting time of classes, staff are expected to report at their regular starting times. When schools are closed for the day, staff directly subject to the I80 required student days such as teaching, classroom support, food service and building office staff will not ordinarily report. Twelve month employees such as custodians, maintenance and twelve month secretaries are expected to report at their regular shifts. The administration office will remain open unless specifically closed by the superintendent.

When schools are closed, all co-curricular events are canceled unless specifically authorized otherwise by the building principal.
