ELL Students and Parents:

- ELL (English as a Second Language) students are typically bilingual. They often have families who speak their native language at home.
- ELL students are often more successful in English when they have access to resources in their native language. This can include books, videos, and other materials.
- ELL students are often more successful in English when they have access to resources in their native language. This can include books, videos, and other materials.

Effective ELL Programs:

- Effective ELL programs provide resources in the students' native language. This can include textbooks, videos, and other materials.
- Effective ELL programs provide resources in the students' native language. This can include textbooks, videos, and other materials.
