Upon graduation, students will be academically prepared and confident to pursue higher education or specialized career training.

Students will:

2.1 think and solve problems using both creative and critical thinking skills;

2.2 read, write and speak the English language effectively for a wide range of purposes;

2.3 communicate effectively in oral and written form in another world language;

2.4 know and apply mathematics to a level of fluency that ensures a broad range of post-secondary opportunities and career choices;

2.5 use analytic and scientific principles to draw sound conclusions;

2.6 understand geography, natural resources, and their shaping effect on government, economics and social patterns;

2.7 understand the concept of community within the context of national and world history, comparative forms and influences of governments and major world religions;

2.8 apply academic skills to life situations.
