E-1 MISSION
Our students will be prepared for and eager to accept the academic, occupational, personal and practical challenges of life in a dynamic global environment.

Adopted: April 26, 2006

E-2 ACADEMICS AND FOUNDATIONS
Upon graduation, students will be academically prepared and confident to pursue higher education or specialized career training.
Students will:
Part 1
2.1 think and solve problems using both creative and critical thinking skills;
2.2 read, write and speak the English language effectively for a wide range of purposes, including the interpretation and analysis of both literary and informational texts;
2.3 understand geography, natural resources, and their shaping effect on government, economics and social patterns;
2.4 understand the concept of community within the context of national and world history, comparative forms and influences of governments and major world religions;
2.5 understand and appreciate the basic concepts of fine, visual and performing arts;
2.6 develop an appreciation of at least one other world culture, which may include the understanding of the basic structure of another world language; and
Part 2
2.7 know and apply mathematics to a level of fluency that ensures a broad range of post-secondary opportunities and career choices;
2.8 use analytic and scientific principles to draw sound conclusions;
2.9 understand and apply current and emerging technologies to demonstrate technology literacy and use technology to solve problems using both computational and critical thinking;
2.10 apply academic skills to life situations.
