

Hello all,

Thanks so much for your hard work and amazing engagement last meeting. The District has received a significant amount of input in the Boundary Review Committee email box. As of this morning all those emails have received a response. You will be receiving all these messages/correspondence from the Email box.

Given the input we have provided you with potential solutions to the majority of the concerns expressed. For these changes to be made the committee has to adopt them.

- 1) The updated documents eliminate the proposed split at Sunset and feeds 100% of students to Issaquah Middle School
- 2) Adjusted boundary to eliminate the split that was proposed at Elementary 16 and feeds 100% of students to Pacific Cascade Middle School
- 3) The revised proposal also keeps [Piece #54 \(including Audubon Park\)](#) at Discovery Elementary, eliminating that neighborhoods concerns. This is accomplished by moving an additional piece of Creekside (Piece 44) to Elementary 17.
- 4) The “Black Nugget” piece #38 has been reassigned to go to PCMS (Original proposal had this piece going to IMS)
- 5) We recalculated/confirmed the percentage splits for each elementary.
 - a. IVE is a 70/30% split: 70% to IMS and 30% to MS#6
 - b. Sunny Hills is an 80/20% split: 80% Pine Lake MS and 20% PCMS
 - c. Discovery is an 80/20% split: 80% Pine Lake MS and 20% BLMS

[12/18 Update: Clarified that Piece #54 will stay at Discovery – which includes the Audubon Park, Field Rush, Park at Pine Lake HOA’s and non-HOA neighborhoods.](#)
