VIDEOS:

There are several videos to watch that are very valuable. The videos are very well done and provide a good way for students to learn how to navigate the ALVS platform. Students are usually sent a link from the online teacher at the start of the course. Alternatively, they can access the videos via the ‘Help’ menu from the Dashboard.

From the Dashboard, click ‘Help’

   Click ‘Getting Started’

   Click on the videos.

EXTRA CREDIT:

The extra credit procedure is explained on slide 10 of the student guided video tour. Contact your online teacher if you have any additional questions regarding extra credit opportunities.
