

## Back to School Learning Options and Technology Support - Secondary

Issaquah School District  
2020-2021

Thank you Parents and Guardians for completing this survey for **each** student independently. The ISD must account for each student enrolling in our schools.

Because we are in the midst of a societal pandemic, school will begin in a remote learning mode. As a result, we are asking families about the type of learning environment they want for their student(s) when the District is able to transition out of a full remote setting. The information is crucial to help us in the assignment of teachers and staff and to create schedules for students. Please note that even if you indicate you would like to have in-person learning as soon as it is determined safe to do so, factors and conditions in the county will determine the District's ability to meet that desire.

In order to actively participate in full remote learning at home, students will need a school-ready computer with a high speed internet connection to engage effectively. If you do not currently have access to those items, your response to the following questions will be used to plan for the distribution of district laptops and hotspots to students who need to use the technology to access their learning.

Completion of this survey will act as **THE official request** for district technology. Failure to complete the survey may result in students not receiving the technology they need for the start of school in a timely fashion.

Student Full Name: \_\_\_\_\_

School: \_\_\_\_\_

Grade: \_\_\_\_\_

### 2020-2021 Learning Options

Please indicate by checking a box below which statement best reflects the commitment you are willing to make for the 2020-2021 school year:

- I am committing to full remote learning for the entire school year.
- I want to have in-person learning as soon as possible once it is determined safe to do so.

[Visit www.issaquah.wednet.edu/reopening for more information on Reopening Schools in 2020-2021](http://www.issaquah.wednet.edu/reopening)

## Technology

Since the District is starting the school year in remote learning AT HOME, are you requesting a district-issued laptop?

\_\_\_\_ Yes      \_\_\_\_ No

If we transition to any instruction happening in the school building and students are asked to have a LAPTOP to take home and bring to school, would you request a district issued laptop?

\_\_\_\_ Yes      \_\_\_\_ No

Since the District is starting the school year in remote learning AT HOME, are you requesting an internet hotspot? Internet hotspots are available, one per family, **for families who do not have internet access for their home computer or district-issued laptop.**

\_\_\_\_ Yes      \_\_\_\_ No

In reserving this equipment I acknowledge the Issaquah School District's right to charge the full cost for repair or replacement when damage or loss occurs. I also acknowledge I am responsible for returning the laptop, adaptor, cord and/or hotspot promptly at the end of the Emergency Closure or end of the school year - whichever comes first. Failure to return equipment may result in fines up to \$580 for laptops and \$185 for hotspots.

## Software Support

Do you as a parent/guardian need support in using the following software programs? Check all that apply.

Canvas       Skyward       Zoom       Microsoft Teams

Parent Signature: \_\_\_\_\_

Date: \_\_\_\_\_
