

# **Issaquah School District Community Polling Study Results**

**Fall 2003 through Summer 2010**

**Prepared by:**

**Dorothy Geraghty  
Sammamish, WA 98074**

# Background

- This study was launched in October 2003. The results encompass seven years (twenty eight quarters) of interviews.
- It is being conducted to obtain learning on the *overall* community's perceptions of the Issaquah School District on a variety of performance areas...
  - Education
  - Finance
  - Workplace environment
  - Management/leadership

# Research Design

- This is a quantitative study with statistically significant findings.
- Interviews are conducted continuously among a random sample of adult residents (18 years old or older) in the Issaquah School District, with approximately 13 interviews conducted each week or 150 each quarter.
- By conducting interviews continuously, perceptions are measured throughout the quarter rather than at just one point in time when breaking news or an event could have a significant impact on the entire quarter's results.
- Ten-minute telephone interviews are conducted by trained interviewers who probe extensively when asking diagnostic questions, such as reasons for giving the District a specific grade for its overall performance.

## Research Design Cont'd.

- The sample replicates the demographic profile of adults in the Issaquah School District with regard to age and sex, based upon the US Census.
- Respondents are asked if they are willing to provide further input to the District at the end of the interview. In each quarter a large number of respondents have answered yes. We have their names, phone numbers, and when available, e-mail addresses. This Summer almost half (46%) indicated that they are willing to be contacted again.
- This is a flexible survey. If an event occurs that might impact perceptions in the community, the sample can be increased for a short time to assess the impact.

# Research Design Cont'd.

- Starting in Fall 2006, additional questions were added to this survey to gain understanding regarding...
  - The overall community's perception on...
    - *Communications from the school district are open and honest*
  - Parents' perceptions for...
    - *Your opinions are welcome and encouraged in this district*
    - *Your involvement in your child's education is welcome*
- The sample was augmented to include at least 50 parents for each school level—Elementary, Middle and High School. Some parents have children in more than one school level and, therefore, answer about more than one school level.

# Research Analysis

Please note that:

- The responses given in the current wave (Summer 2010) are compared to previous responses given.
  - When there are **statistically significant** differences in responses from one wave of interviews to another at the 90% confidence level it is noted.
  - When there are **directional** differences in responses (numerical differences that are not statistically significant), they are also mentioned.
- Responses do not always add up to 100% due to rounding. Instead at times they add up to 99% or 101%.

# Key Findings

## Fall 2003 Vs. Summer 2010

- As the following charts detail, since the Fall of 2003 the levels of A/B grades given to the Issaquah School District have **significantly** increased for virtually all performance attributes.
  - The exception is *keeping schools safe* which has improved directionally (93% are now giving it an A or B rating vs. 88% in Fall 2003).
- In 2006, the attribute *communications from the school district are open and honest* was added to this survey. The vast majority of residents (84%) give the District an A/B grade for its performance in this area, with 42% giving the District an A grade for its performance.

# Reasons Given for Grade Given to Administration for Its Performance Overall

- Respondents are probed regarding reasons for the grade they give the Administration for its overall performance.
- Residents' perceptions of the Administration have improved since the first wave of measurements were taken in Fall 2003, a year after the strike. But, during the past quarter, there was an increase in residents with dissatisfactions.
  - Almost four in ten (38%) mention a positive reason for the grade they give, which is significantly more than in Fall 2003 (27%), a year after the strike. But, directionally fewer residents gave a positive reason in the Summer than in the Spring (38% vs. 43%).
  - Over half (56%) mention that something needs improvement, which is significantly fewer than in Fall 2003 (72%). But, significantly more residents requested an improvement in the Summer than in the Spring (56% vs. 44%).
- The reasons given continue to be diverse with no specific reason mentioned by more than a small number of respondents.
- The most frequently given positive reasons are:
  - Satisfied/happy with school experience (18%)
  - Doing a good job (10%)
  - Good parental involvement/support (9%)
  - Positive Administration comments (5%)

# Reasons Given for Grade Given to Administration for Its Performance Overall Cont'd.

- The most frequently given negative reasons for the grade given to the Administration are mentioned by small numbers of residents.
  - Better administration/leadership/community relations/ decision making needed (14%)
  - Communications overall (11%)
  - Increase funding/school support/work with State for funding/better use of funds (10%)
  - Improve communication to parents from teachers/Administration/more timely information (8%)
  - Average/OK performance (8%)
  - Better teachers /better teacher-student relations/more qualified teachers needed (5%)
- Very few (less than 5%) mention any other specific reason.

# Suggestions for District

- Respondents are also asked to suggest improvements that would cause them to give the District a higher grade. Historically, the majority of residents make at least one suggestion.
  - Seven in ten residents (72%) made a suggestion this Summer. This is significantly less than in Fall 2003 when 83% made a suggestion but directionally more than last Spring when 67% made a suggestion.
- The suggestions continue to be diverse. The most frequently given suggestion continues to be to improve communications. Approximately one in four (25%) make this type of suggestion. Specific communication suggestions include:
  - Improve communication to parents from teachers/Administration/provide more/timely information (19%). Significantly more parents made this suggestion this Summer than in the Spring (9%).
  - Need to listen to parents/community, solicit input/involvement (7%)

## Suggestions for District Cont'd.

- Other suggestions include...
  - Better teachers needed/better teacher-student relations (14%).
    - Parents of High School students were especially likely to request this (24%)
  - Increase funding/school support/work with State for funding (8%)
  - Change curriculum/go back to basics (7%)
  - More focus on student's individual needs/improve learning experience (6%), which was especially likely to be requested by parents of High School students (10%)
  - Need to reduce class size/lower student teacher ratio (5%)
- All other suggestions were given by less than 5% of respondents.

# How Voters Feel About the Tax Dollars They Pay for Local Public Education

- Seven in ten residents (70%) feel that the amount of taxes that they pay for local public education is about right or too low. Since this study began in 2003, residents have consistently had a positive attitude towards the taxes they pay for education.
- Residents feel that the taxes they pay for local public education are...

# Conclusions and Recommendations

- Overall, the number of residents giving the District high grades has improved since 2003.
  - Since 2003, the levels of high (A/B) grades have increased significantly for all but one performance attribute and directionally for this remaining attribute—*keeping schools safe* (93% gave an A or B grade this Summer vs. 88% in Fall 2003).
- During the past quarter, the levels of A/B grades increased directionally or significantly for virtually all performance attributes. Grades increased significantly for...
  - *Good to work for* (from 75% giving the District an A or B in the Spring to 90% in the Summer)
  - *Well managed* (from 78% in the Spring to 86% in the Summer)
  - *Keeps the community informed* (from 78% to 85%)
  - *Excellent leadership* (from 75% to 82%)
- There was one directional decline in A/B grades during the Summer for *Administration works with parents on programs that fit the budget* (from 73% in the Spring to 69% in the Summer).

## Conclusions and Recommendations Cont'd.

- With regard to the new attributes that were added to this study in Fall 2006, the District's performance continues to be strong with the vast majority of parents giving it high grades.
  - Over four out of five residents (84%) give the District an A or B grade for *communications from the school district are open and honest*.
  - Nine in ten parents (91%) give the District an A or B grade for *your involvement in your child's education is welcome*. Two out of three (66%) give the District an A grade.
  - Four out of five parents (81%) give Issaquah an A or B grade for *your opinions are welcome and encouraged in this District*.

# Conclusions And Recommendations Cont'd.

- The improved grades for the Administration's overall performance vs. 2003 are reflected in the reasons given for the grades.
  - Almost four in ten (38%) mention a positive reason, which is significantly more than in Fall 2003 (27%) but directionally less than in the Spring (43%).
  - Over half (56%) mention that the District needs to improve in some area when they explain why they gave the District the overall grade that they did. This is significantly fewer people than in Fall 2003 (72%), but significantly more than in the Spring (44%).
  - The reasons continue to be diverse with no specific reason mentioned by more than a small minority of residents.
- Respondents are also asked to suggest improvements that the District could make, and historically the vast majority of residents will suggest at least one improvement. This Summer, seven in ten residents (72%) made a suggestion, which is significantly fewer than in Fall 2003 when 83% made a suggestion but directionally more than in the Spring when two in three made a suggestion (67%).
  - The suggestions continue to be diverse. The most frequently given suggestions are:
    - Improve in the area of communications (25%); e.g., improve communications to parents from teachers/Administration/provide more timely information (19%)
    - Better teachers needed/better teacher-students relations (14%). Parents of High School students are especially likely to request this (24%)

# Conclusions And Recommendations Cont'd.

- The vast majority of residents continue to be satisfied with the amount of taxes they are paying for local education. Seven in ten (70%) feel that the taxes they are paying for local education are about right (52%) or too low (18%).
- The most frequently mentioned primary sources of information about the District continue to be Family and Friends (22%), the Issaquah Press (20%), the Internet (19%) and the District Newsletter (17%). The vast majority (78%) of residents mention one of these sources as their primary source of information about the District.
- This quarter approximately four in ten respondents (46%) indicated that they are willing to give further input. If additional in-depth learning is desired on any of these findings, it is possible to contact these respondents...
  - with additional questions on such things as the underlying reasons for a grade or suggested improvements
  - regarding new issues that the District would like their input on, such as program changes under consideration
  - to invite them to join an advisory group
